

The Correct way to clean Squash Courts

1. Dust all courts, walls, doors etc

2. Give all floors of courts a thorough vacuum

3. In 1 bucket of boiling water add 1 cup of bleach & wet wash all floors

4. 1 bucket per court - do at least once a week during season or before a competition starts

5. Allow 12 hours for Courts to dry completely

This process should be done as a matter of course – never sweep courts, only vacuum
